3   **SEC. 6521. REPORT ON ASSESSING WILL TO FIGHT.**

4           (a) *DEFINITIONS.—In this section:*

5                   (1) *APPROPRIATE CONGRESSIONAL COMMIT-*  
6                   *TEES.—The term “appropriate congressional commit-*  
7                   *tees” means the following:*

8                           (A) *The congressional intelligence commit-*  
9                           *tees.*

10                           (B) *The Committee on Foreign Relations,*  
11                           *the Committee on Armed Services, and the Sub-*  
12                           *committee on Defense of the Committee on Ap-*  
13                           *propriations of the Senate.*

14                           (C) *The Committee on Foreign Affairs, the*  
15                           *Committee on Armed Services, and the Sub-*  
16                           *committee on Defense of the Committee on Ap-*  
17                           *propriations of the House of Representatives.*

18                   (2) *MILITARY WILL TO FIGHT.—The term “mili-*  
19                   *tary will to fight” means, with respect to the military*  
20                   *of a country, the disposition and decision to fight,*  
21                   *act, or persevere as needed.*

22                   (3) *NATIONAL WILL TO FIGHT.—The term “na-*  
23                   *tional will to fight” means, with respect to the gov-*  
24                   *ernment of a country, the resolve to conduct sustained*  
25                   *military and other operations for an objective even*

1       *when the expectation of success decreases or the need*  
2       *for significant political, economic, and military sac-*  
3       *rifices increases.*

4       **(b) FINDINGS.**—*Congress finds the following:*

5               (1) *According to a study by the RAND corpora-*  
6       *tion, “will to fight” is poorly analyzed and the least*  
7       *understood aspect of war.*

8               (2) *In testimony before the Select Committee on*  
9       *Intelligence of the Senate in May 2022, top intel-*  
10       *ligence officials of the United States indicated that al-*  
11       *though the intelligence community accurately antici-*  
12       *pated Russia’s invasion of Ukraine, the intelligence*  
13       *community did not accurately assess the will of*  
14       *Ukrainian forces to fight in opposition to a Russian*  
15       *invasion or that the Ukrainian forces would succeed*  
16       *in averting a rapid Russian military occupation of*  
17       *Kyiv.*

18              (3) *According to the RAND corporation, the in-*  
19       *telligence community estimated that the Afghan gov-*  
20       *ernment’s forces could hold out against the Taliban*  
21       *for as long as 2 years if all ground forces of the*  
22       *United States were withdrawn. This estimate was re-*  
23       *vised in June 2021 to reflect an intelligence commu-*  
24       *nity view that Afghanistan’s military collapse could*  
25       *come in 6 to 12 months. In August 2021, the Afghan*

1       *government fell within days after the ground forces of*  
2       *the United States were withdrawn.*

3               *(4) Similarly, the rapid advance of the Islamic*  
4       *State in Iraq and Syria and near-total collapse of the*  
5       *Iraqi Security Forces in 2014 appeared to take the*  
6       *policymakers of the United States by surprise.*

7               *(5) The apparent gaps in these analyses had im-*  
8       *portant implications for policy decisions of the*  
9       *United States toward Russia and Afghanistan, and*  
10       *suggest a need for further examination of how the in-*  
11       *telligence community assesses a foreign military's will*  
12       *to fight.*

13               *(c) REPORT.—Not later than 180 days after the date*  
14       *of the enactment of this Act, the Director of National Intel-*  
15       *ligence, acting through the National Intelligence Council*  
16       *and in coordination with the heads of the elements of the*  
17       *intelligence community that the Director determines appro-*  
18       *priate, shall submit to the appropriate congressional com-*  
19       *mittees a report examining the extent to which analyses of*  
20       *the military will to fight and the national will to fight in-*  
21       *formed the all-source analyses of the intelligence community*  
22       *regarding how the armed forces and governments of*  
23       *Ukraine, Afghanistan, and Iraq would perform at key junc-*  
24       *tures.*

1       (d) *ELEMENTS.*—*The report under subsection (c) shall*  
2 *include the following:*

3           (1) *The methodology of the intelligence commu-*  
4 *nity for measuring the military will to fight and the*  
5 *national will to fight of a foreign country.*

6           (2) *The extent to which analysts of the intel-*  
7 *ligence community applied such methodology when*  
8 *assessing the military will to fight and the national*  
9 *will to fight of—*

10           (A) *Afghanistan following the April 2021*  
11 *announcement of the full withdrawal of the*  
12 *United States Armed Forces;*

13           (B) *Iraq in the face of the rapid emergence*  
14 *and advancement in 2014 of Islamic State in*  
15 *Iraq and Syria; and*

16           (C) *Ukraine and Russia during the initial*

3                   **SEC. 9301. AMENDMENTS TO SECURE EMBASSY CONSTRUC-**  
4                   **TION AND COUNTERTERRORISM ACT OF 1999.**

5                   (a) *SHORT TITLE.*—This section may be cited as the  
6                   “Secure Embassy Construction and Counterterrorism Act  
7                   of 2022”.

8                   (b) *FINDINGS.*—Congress makes the following findings:

9                   (1) *The Secure Embassy Construction and*  
10                  *Counterterrorism Act of 1999 (title VI of division A*  
11                  *of appendix G of Public Law 106–113) was a nec-*  
12                  *essary response to bombings on August 7, 1998, at the*  
13                  *United States embassies in Nairobi, Kenya, and in*  
14                  *Dar es Salaam, Tanzania, that were destroyed by si-*  
15                  *multaneously exploding bombs. The resulting explo-*  
16                  *sions killed 220 persons and injured more than 4,000*  
17                  *others. Twelve Americans and 40 Kenyan and Tanza-*  
18                  *nian employees of the United States Foreign Service*  
19                  *were killed in the attacks.*

20                  (2) *Those bombings, followed by the expedi-*  
21                  *tionary diplomatic efforts in Iraq and Afghanistan,*  
22                  *demonstrated the need to prioritize the security of*  
23                  *United States posts and personnel abroad above other*  
24                  *considerations.*

1           (3) *Between 1999 and 2022, the risk calculus of*  
2           *the Department impacted the ability of United States*  
3           *diplomats around the world to advance the interests*  
4           *of the United States through access to local popu-*  
5           *lations, leaders, and places.*

6           (4) *America’s competitors and adversaries do not*  
7           *have the same restrictions that United States dip-*  
8           *lomats have, especially in critically important me-*  
9           *dium-threat and high-threat posts.*

10           (5) *The Department’s 2021 Overseas Security*  
11           *Panel report states that—*

12                   (A) *the requirement for setback and colloca-*  
13                   *tion of diplomatic posts under paragraphs (2)*  
14                   *and (3) of section 606(a) of the Secure Embassy*  
15                   *Construction and Counterterrorism Act of 1999*  
16                   *(22 U.S.C. 4865(a)) has led to skyrocketing costs*  
17                   *of new embassies and consulates; and*

18                   (B) *the locations of such posts have become*  
19                   *less desirable, creating an extremely suboptimal*  
20                   *nexus that further hinders United States dip-*  
21                   *lomats who are willing to accept more risk in*  
22                   *order to advance United States interests.*

23           (c) *SENSE OF CONGRESS.—It is the sense of Congress*  
24           *that—*

1           (1) *the setback and collocation requirements re-*  
2 *ferred to in subsection (b)(5)(A), even with available*  
3 *waivers, no longer provide the security such require-*  
4 *ments used to provide because of advancement in tech-*  
5 *nologies, such as remote controlled drones, that can*  
6 *evade walls and other such static barriers;*

7           (2) *the Department should focus on creating per-*  
8 *formance security standards that—*

9                   (A) *attempt to keep the setback requirements*  
10 *of diplomatic posts as limited as possible; and*

11                   (B) *provide diplomats access to local popu-*  
12 *lations as much as possible, while still providing*  
13 *a necessary level of security;*

14           (3) *collocation of diplomatic facilities is often*  
15 *not feasible or advisable, particularly for public di-*  
16 *plomacy spaces whose mission is to reach and be ac-*  
17 *cessible to wide sectors of the public, including in*  
18 *countries with repressive governments, since such*  
19 *spaces are required to permit the foreign public to*  
20 *enter and exit the space easily and openly;*

21           (4) *the Bureau of Diplomatic Security should—*

22                   (A) *fully utilize the waiver process provided*  
23 *under paragraphs (2)(B) and (3)(B) of section*  
24 *606(a) of the Secure Embassy Construction and*

1           *Counterterrorism Act of 1999 (22 U.S.C.*  
2           *4865(a)); and*

3                   *(B) appropriately exercise such waiver*  
4           *process as a tool to right-size the appropriate se-*  
5           *curity footing at each diplomatic post rather*  
6           *than only approving waivers in extreme cir-*  
7           *cumstances;*

8           *(5) the return of great power competition re-*  
9           *quires—*

10                   *(A) United States diplomats to do all they*  
11           *can to outperform our adversaries; and*

12                   *(B) the Department to better optimize use of*  
13           *taxpayer funding to advance United States na-*  
14           *tional interests; and*

15           *(6) this section will better enable United States*  
16           *diplomats to compete in the 21st century, while sav-*  
17           *ing United States taxpayers millions in reduced*  
18           *property and maintenance costs at embassies and*  
19           *consulates abroad.*

20           *(d) DEFINITION OF UNITED STATES DIPLOMATIC FA-*  
21           *CILITY.—Section 603 of the Secure Embassy Construction*  
22           *and Counterterrorism Act of 1999 (title VI of division A*  
23           *of appendix G of Public Law 106–113) is amended to read*  
24           *as follows:*

1 **“SEC. 603. UNITED STATES DIPLOMATIC FACILITY DEFINED.**

8           *“Diplomatic Support and Security Act of 2022”.*

9           (b) *FINDINGS.—Congress makes the following findings:*

10                   (1) *A robust overseas diplomatic presence is part*  
11                   *of an effective foreign policy, particularly in volatile*  
12                   *environments where a flexible and timely diplomatic*  
13                   *response can be decisive in preventing and addressing*

17                   *overseas where they face threats related to inter-*  
18                   *national terrorism, violent conflict, and public health.*

19                   (3) *The Department has a remarkable record of*

3 *quirements and training facilities, including the new*  
4 *Foreign Affairs Security Training Center in Black-*

6 *(4) Diplomatic missions rely on robust staffing*

3           and advance United States priorities;

4           (B) understand and report on foreign polit-  
5           ical, social, and economic conditions through  
6           meeting and interacting with community offi-

10          (D) collaborate and, at times, compete with  
11          other diplomatic missions, particularly those,  
12          such as that of the People's Republic of China,  
13          that do not have restrictions on meeting loca-  
14          tions.

15          (7) Given these stakes, Congress has a responsi-  
16          bility to empower, support, and hold the Department  
17          accountable for implementing an aggressive strategy  
18          to ensure a robust overseas presence that mitigates po-  
19          tential risks and adequately considers the myriad di-  
20          rect and indirect consequences of a lack of diplomatic  
21          presence.
